

Laura Rodríguez

Data Scientist & Fashion Technologist
Mathematics, AI, and Fashion Design Applied to Industry

About me

Data Scientist and Fashion Technologist specializing in the intersection of algorithmic modeling and technical garment construction. My hybrid background bridges large-scale data processing and analytics with industrial pattern making and garment assembly. I leverage digital design tools, machine learning, and automation to optimize the textile value chain—from conceptual design to operational scalability.

Full Ability Thursdays,
Saturdays & Sundays
Valid Driver's License

Education

Higher Degree in Fashion Design

Universidad Europea | IADE | 2025 - (Present)

Master's Degree in Big Data, Data Science & Artificial Intelligence

Universidad Complutense de Madrid | 2024 - 2025

- Master's Thesis: Fine art authorship authentication using Explainable AI (XAI).

Bachelor's Degree in Mathematics

Universidad de Extremadura | 2019 - 2024

- Undergraduate Thesis: Emotion classification using Deep Learning.
- Erasmus Exchange: Zielona Góra, Poland (2023 - 2024).

Professional Experience

Applied Mathematics Lecturer | UNIE Universidad

Teacher of the Data Mining module to fourth-year students in the Bachelor's Degree in Mathematics.
Madrid | January 2026 - (Present)

Young Talent Program - Correos

DALIA Team (Digitization, Automation & AI Lab)

- Built modular RPA solutions using UiPath, handled workflow orchestration via n8n and Make, ensured JSON data traceability, and operated across complex corporate IT environments.
- Collaborated cross-functionally between engineering and business stakeholders.

Madrid | February - July 2025

Honors & Awards

Best Upcycling Project Award – Re-Chulos de San Isidro Competition

Madrid | May 2026

1st Prize – Scholarship Competition – Master's in Big Data, Data Science & AI, UCM – NTIC Master

Madrid | September 2025

Skills

- **Data Analytics & ML:** Python, R, SQL, Apache Spark, Deep Learning, Explainable AI (XAI)
- **Process Automation:** UiPath (Modular RPA), n8n, Make, JSON data traceability
- **Technical Design:** Adobe Illustrator (Tech packs and flat sketching), Adobe Photoshop
- **Textile Production:** Industrial pattern making, garment construction techniques, upcycling
